

# EQUITABLE SCHOOLS FUND

BY SISTER CITIES PROJECT

**SISTER  
CITIES  
PROJECT**

Together, let's create a school system  
that helps every child in San Diego  
reach their full potential.

We all want the best for our children and our schools. Many of us support our local schools through generous personal donations, showing how deeply we care about education in our community. Now there's a simple and meaningful way to extend this spirit of supporting education to schools across San Diego.

The Equitable Schools Fund introduces an innovative approach to education funding in San Diego: for the first time, a dedicated pathway for us to direct donations to public schools that historically have not had access to private donations to supplement inadequate state funds.

## ***Donate!***

Every donation counts to ensure students have access to quality education and opportunities, regardless of zip code.

## ***Join the movement!***

Join the team of parents, students and community members championing the Equitable Schools Fund in our schools and communities.
